HOW WE DECORATE

PRINT METHODS.

Three ways to put your brand on fabric. We'll recommend the right one for your design, quantity and budget.

Direct-to-Film (DTF)

Full-color designs with unlimited colors and fine detail. Perfect for small orders and complex logos. Follow care instructions for longevity.

02

Screen Printing

Ink fused directly into the fabric for bold, colorfast prints that withstand heavy use and high-heat washing.

03

Embroidery

Thread stitched into the fabric for a premium, textured finish that lasts the life of the garment.
